Handheld Dot Peen Marking Machine

Model:XY/SD-4-9030 XY/SD-4-12040

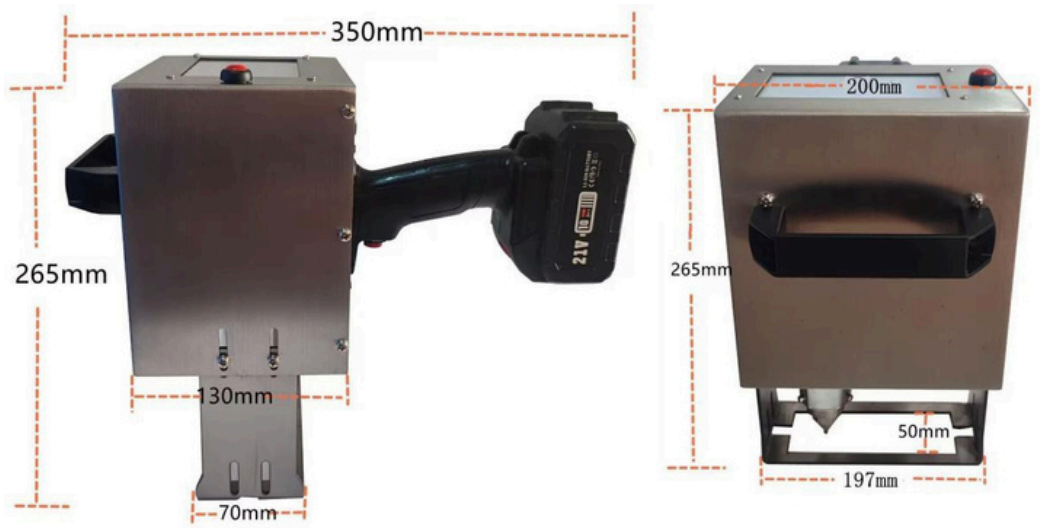

- Lightweight only 5.8KG
- Max marking area:120*40mm
- Easy and quick marking on almost metals

Technical Data

(Size: XY/SD-4-9030)

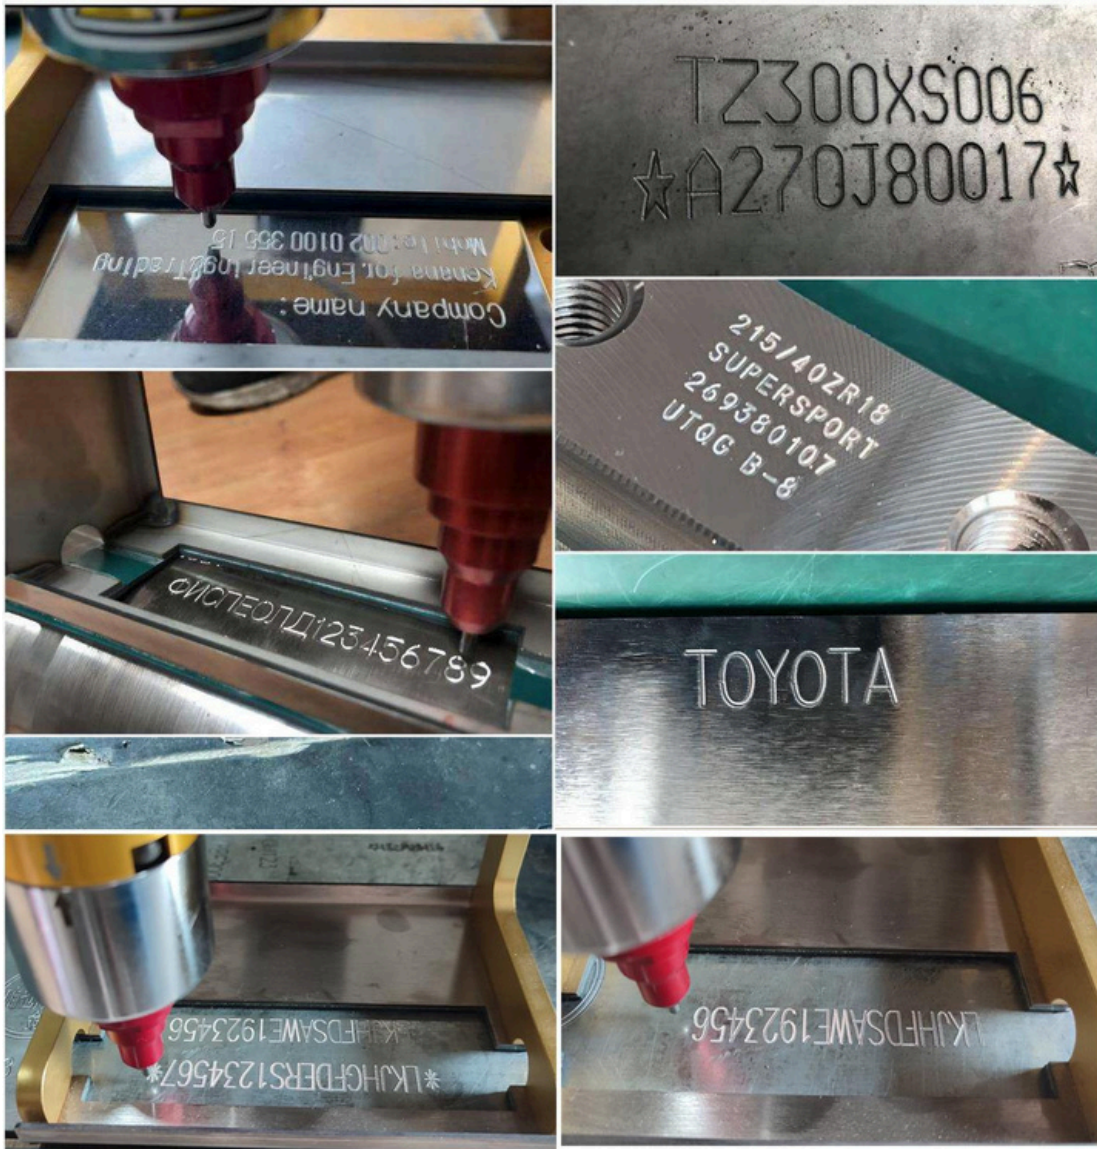

(Size: XY/SD-4-12040)

Detailed Product Parameter	
Product Name	Handheld Electric Marking Machine
Model No.	XY/SD-4-9030 XY/SD-4-12040
Standard Working Area	90mm×30mm 120mm×40mm
Marking Depth	0.01~1.5mm(Depending on the material)
Marking Speed	≤50mm/second (for characters height of 3mm or 3-4 numbers /second)
Printed Content	Letters,numbers,characters,logos,Chinese characters,serial numbers
Repeated Accuracy	0.01 mm
Pin Hardness	HRC 92
Power Supply	Li-battery
User provided	NON
Machine Power:	≤250 W
Working Environment:	-5~40 C
Machine Weight:	5.8KG

1. **Product features:** 1). Man-machine interface: embedded ARM9 industrial control platform, full-screen touch,
- 2). Display system: 7-inch true color touch screen (industrial grade), software embedded control system.
- 3). Drive Control Card: ARM+STM 32 Dual Bit Processor
- 4). Stepper motor driver: Fully digital drive, no noise operation, extremely smooth marking effect, automatic semi-flow,
 Steppermotor: highqualitydomesticmotor(features:lownoise,large torque, low heat)
- 5). Transmission mechanism /Guide Rail: Taiwan Taiwan Jingwei (characteristics: high precision, low operating noise, closed type)
- 6). Print pin: hard metal,Hardness HRC92
- 7). Suitable for mobile coding, the integrated design is more convenient.
- 8). Software versions in English and Chinese version.
